

DOCENT storage solution

A robust bookcase with lots of room

Feet adjust easily so you can make the unit stand steady even on slightly uneven floors.

Bridging shelf in two sizes gives you open storage above the TV or the desk.

Spacious, smooth action drawers with safety stops.

Doors have self-closing hinges

DOCENT lets you create a substantial bookcase combination. With units in three heights and two widths you'll find it easy to create your own unique piece of furniture. The TV bench has room for most 32" televisions. The medium brown frames can be combined with doors in grey, medium brown or

glass. Complete the look with the distinctively powerful handle design.

DOCENT is a printed medium-brown oak pattern.

Design: Gregor Nilsson.

How to build DOCENT

- Choose and combine the parts as you require. Build high or wide.
- Add doors and drawers. The drawers are sold as a pair and can be placed anywhere in the 38 $\frac{3}{8}$ "(98 cm) wide units.
- Finally, stop by the lighting department to see how you can light up your bookcase.

All the parts to DOCENT
